PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with 3+ years of professional experience building and maintaining production web applications with React, Next.js, Node.js, TypeScript and Strapi. Ships features for a SaaS platform used by 5,000+ people every day and has delivered 15+ production websites for brands in France and Monaco. Experienced in REST API development, headless CMS (Strapi), Stripe payment integration, Mailjet email automation and real-time features with Socket.IO. Comfortable running several projects in parallel and working with designers and stakeholders in English and French.

WORK EXPERIENCE

Full-Stack Web Developer

Tek&Me (Tendances Group)

02/2024 – Present

Tunis, Tunisia

- Develop and maintain production features (front end and back end) for Agilix, a SaaS platform used by 5,000+ people every day.
- Built custom Strapi back ends (headless CMS) with admin dashboards for client websites, including Nissa Rugby, Novanea, Exquise, Les Jardins de Gaïa, Poseidon Spa, Casamar Monaco, Alkimeo Monaco, Menuiserie Rossi Monaco, EMC Monaco and Smadec Monaco.
- Developed and deployed responsive websites with Next.js, React and Bootstrap for group brands, including Tendances.mc, Tendances.events, Tendances.dev and Tendances.sport (15+ production websites in total).
- Integrated Stripe payments and Mailjet email automation across multiple client projects.
- Built reusable front-end components and Node.js APIs for business applications such as Planet of Finance.
- Designed and developed StepyDate, a dating platform with real-time messaging (Socket.IO), event management, custom matching logic and an admin dashboard (Next.js, Node.js, MongoDB).

Full-Stack Web Developer

CAPIT

06/2023 – 02/2024

Tunis, Tunisia

- Built internal web applications with React and Node.js.
- Designed and deployed WordPress websites for non-profit organisations, including Scouts Tunisie and Fondation Scouts Tunisie-Canada, set up so non-technical staff can manage their own content.

Full-Stack Developer Intern (Final-Year Project)

CAPIT

01/2023 – 06/2023

Tunis, Tunisia

- Built CAPITALL, a web platform for startups with integrated ERP and CRM modules (task and project tracking, client management, operations), using React, Redux, Node.js, Express, MongoDB and JWT authentication.
